

EASY SPRING HOME PROJECTS TO REFRESH YOUR SPACE FOR THE SEASON

Spring is the perfect time to give your home a fresh start. Longer days and warmer weather make it easier to tackle small projects that can have a big impact on how your space looks and feels. The good news? A spring refresh doesn't have to involve major renovations; simple updates can go a long way.

START WITH A SEASONAL RESET

Begin by putting away heavy winter decor and textiles. Swapping out darker colors for lighter tones instantly brightens a room. Fresh linens, lightweight throw blankets and simple greenery can help your home feel more open and energized.

REFRESH HIGH-TRAFFIC AREAS

Focus on the spaces you use most, like entryways, kitchens and living rooms. Decluttering countertops, organizing cabinets and updating storage solutions can improve both function and flow. Even small changes, like updating drawer organizers or clearing out unused items, can make daily routines feel easier.

BRING THE OUTDOORS IN

Spring is a great time to add natural elements indoors. Potted plants, fresh flowers or natural textures like wood and woven baskets can help connect your home to the season outside. These touches add warmth and life without overwhelming your space.

TACKLE EASY OUTDOOR PROJECTS

Give patios, porches and outdoor seating areas a quick refresh. Cleaning outdoor furniture, adding new cushions or updating planters helps make outdoor spaces more inviting as temperatures rise.

Spring home projects are about creating spaces that feel lighter, cleaner and ready for the months ahead. Whether you're settling into a new home or simply refreshing where you live now, small seasonal updates can make a meaningful difference.
